

Keep wildlife wild!

Keeping wildlife wild is up to you! It is your responsibility to keep yourself, your family, and the wildlife safe. Here are some tips for doing your part to make sure our wildlife populations continues to thrive:

- Do not leave pet food or water outside on your porch at night
- Keep barbeque grills clean and grease-free to minimize active odors
- Properly secure food, garbage, and recycling; do not leave trash outside (especially with any strong food odors)
- If composting, do not put meat, fish, or other pungent smelling scraps in compost piles (adding lime can also reduce odors)
- Pick ripe fruit off trees and bushes and pick up any that has dropped on the ground

VILLAGE OF

NEW MEXICO

FEEDING WILDLIFE (EXCLUDING BIRD FEEDERS) IS BANNED IN THE VILLAGE OF RUIDOSO.
